PROFILE SUMMARY:

EDUCATION:

J.E.S College, JALNA, Maharashtra	2022
BCA-Bachelors In Computer Application	CGPA: 8.24/10

PROJECTS:

Amazon Clone | Environments: Html5, Css3.

- The Amazon clone project is a front-end web development exercise that focuses on creating a simplified version of the Amazon homepage. The project will use HTML5 for the structure and content of the webpage and CSS3 for styling and layout. This project is ideal for practicing responsive web design, flexbox/grid layouts, and basic UI/UX design principles.

Zomato Clone | Environments: Html5, Css3, JavaScript, React .

- The Zomato clone project is a front-end development exercise aimed at replicating the basic features of the Zomato website. The project focuses on creating a visually appealing and responsive user interface that allows users to search for restaurants, view details, and explore menu options. This project is ideal for practicing modern web development techniques, including component-based architecture with React.

TECHNICAL SKILLS:

- Front-End Technologies:** Html5, Css3, JavaScript, React.
- Back -End Technologies:** Node.js, Express.js, Python, Django.
- Frameworks/Libraries:** Redux, Bootstrap, Tailwind CSS.
